

Year:	Year 3	Unit:	Changing Me
What will I learn this year? Know that in animals and humans lots of changes happen between conception and growing up Know that in nature it is usually the female that carries the baby Know that in humans a mother carries the baby in her uterus (womb) and this is where it develops Know that babies need love and care from their parents/carers Know some of the changes that happen between being a baby and a child Know that the male and female body needs to change at puberty so their bodies can make babies when they are adults Know some of the outside body changes that happen during puberty • Know some of the changes on the inside that happen during puberty			
		What should I already know?	
er, mb, re, cles, va, Task,	This Puzzle (Puzzle) begins with an exploration about babies and what they need to grow and develop including parenting. Children learn that it is usually the female that carries the baby in nature. This leads onto lessons where puberty is introduced. Children first look at the outside body changes in males and females. They learn that puberty is a natural part of growing up and that it is a process for getting their bodies ready to make a baby when grown-up. Inside body changes are also taught. Children learn that females have eggs (ova) in their ovaries and these are released monthly. If unfertilised by a male's sperm it passes out of the body as a period. Sexual intercourse and the birth of the baby is not taught in this year group. Children discuss how they feel about puberty and growing up and there are opportunities for them to seek reassurance if anything is worrying them	• Know that life cycles exist in nature • Know that aging is a natural process including old-age • Know that some changes are out of an individual's control • Know how their bodies have changed from when they were a baby and that they will continue to change as they age • Know the physical differences between male and female bodies • Know the correct names for private body parts • Know that private body parts are special and that no one has the right to hurt these • Know who to ask for help if they are worried or frightened • Know there are different types of touch and that some are acceptable and some are unacceptable	
		What will I learn next?	
		• Know that personal characteristics are inherited from birth parents and this is brought about by an ovum joining with a sperm • Know that babies are made by a sperm joining with an ovum • Know the names of the different internal and external body parts that are needed to make a baby • Know how the female and male body change at puberty • Know that personal hygiene is important during puberty and as an adult • Know that change is a normal part of life and that some cannot be controlled and have to be accepted • Know that change can bring about a range of different emotions
