

Hi year 4,

This is your maths work for the next 3 weeks. In addition to this, we will continue to put things on Purple Mash.

The White Rose Hub lessons are what we would teach from in school but they can be quite hard so don't worry if there are parts you can't do without help.

<https://whiterosemaths.com/homelearning>

- Click on the website and find the year 4 section on the right hand column.
- This will bring up videos and activities for the summer term.
- The most recent activities will be week 4 but scroll to the bottom and start with summer week 1 (20th April)
- Watch the video and then try the activity.

Good luck – email us with any problems

Mr Farrar and Miss Atkin
