

# Home Access Password

## Did you know your child has access to EducationCity at home?

We've arranged for our students to be able to access EducationCity at home to help with learning development. The combined home/school access is a great way to reinforce learning and also lets you as a parent get involved.

## What is EducationCity?

EducationCity is the UK's leading online teaching, learning and assessment resource that's designed with teachers, students and even parents in mind.

They provide a fun and engaging learning environment with a wide range of Activities and Tests to practise, which support individual learning.

## Log In Today:

1. Go to: **www.EducationCity.com**
2. Click on the orange Login button
3. Enter your child's Username and Password below to log in
4. Simply access your child's year group

Teachers: Affix your student's login details here.

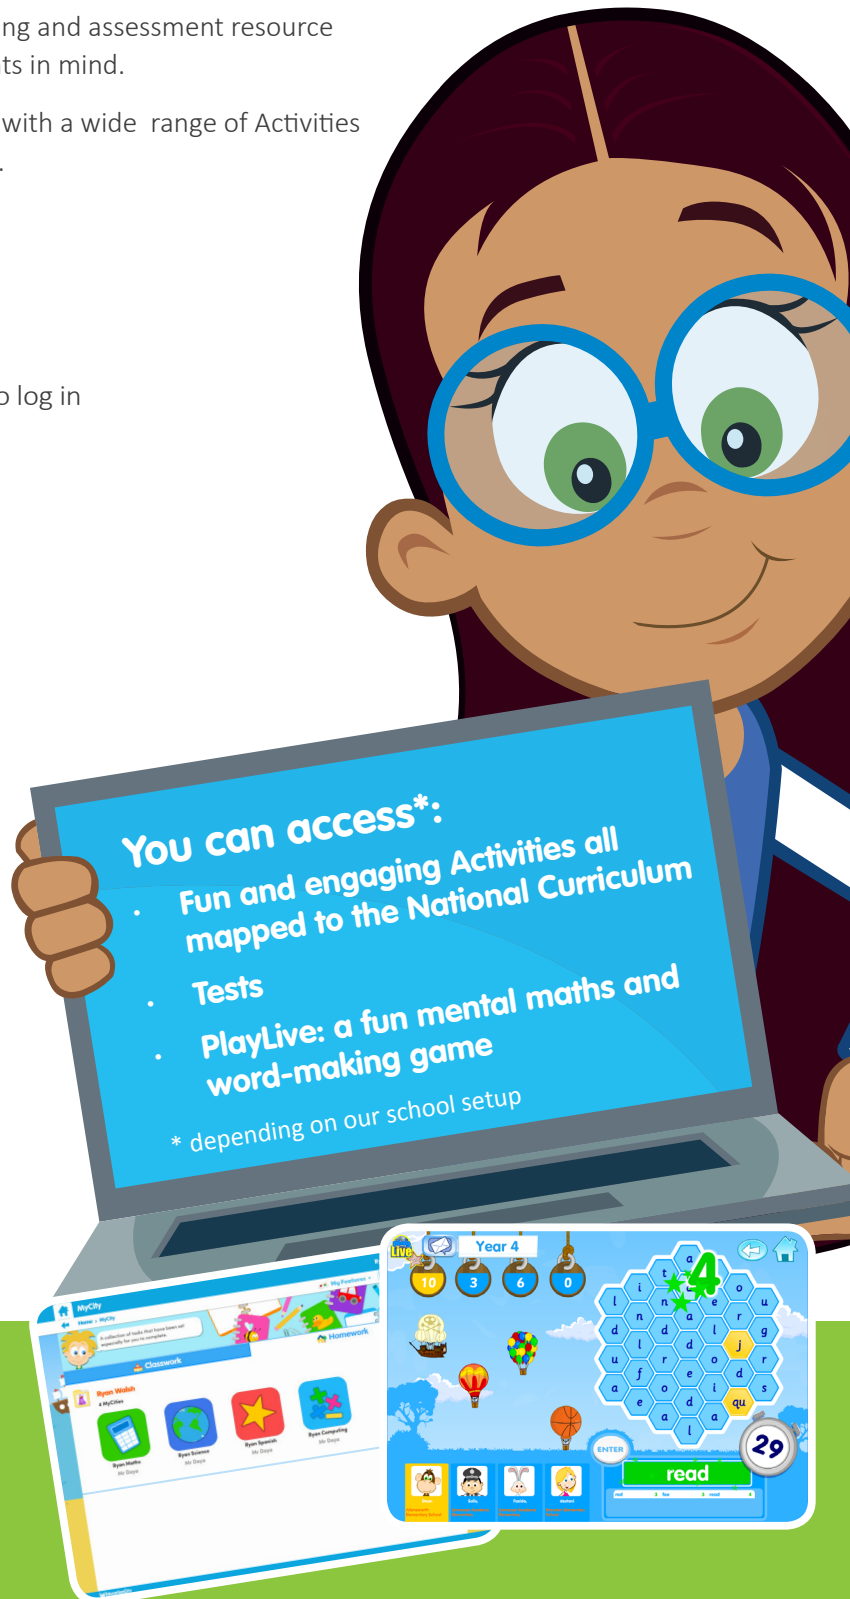

You can collect these for all your students by going to the Manage Users area and selecting the individuals from the list by checking the tickbox on the left, then choosing Print Logins from the Actions drop down menu.

## Having trouble accessing? Here are some handy tips to get you started:

- Ensure that you have cleared your internet cache and cookies from your browser
- Disable pop-up blockers
- Ensure the latest version of Flash player is installed
- Ensure that your computer has a sound card installed

If after reviewing all of these areas you are still experiencing difficulties accessing EducationCity, please don't hesitate to call their Customer Service Team on 01572 725080 or email them on [customerservice@educationcity.com](mailto:customerservice@educationcity.com). They will be happy to help.

Enjoy!
